THE GLOBALPRO DIFFERENCE OUR UNIQUE POSITION IN THE INSURANCE SERVICES WORLD

When a loss occurs, it is imperative to seek the assistance of a claims professional. **These professionals have proven to recover 500% more money from insurance companies** than when a claim is handled by the policyholder themselves.

We Differ from Your Insurance Agent

We leverage experience and proprietary data to advise on coverage, cost, and comparable products. We analyze cost and the accuracy of information that may affect coverage and premiums.

We Differ from Your Risk Manager

We compliment the efforts of a Risk Manager or Chief Financial Officer by focusing on claim reporting procedures. We focus on reporting and documenting a claim to ensure an efficient process to maximize recovery.

We Differ from Your Contractor

Our team works alongside contractors to ensure that the scope of work and cost are competitive and recoverable; We properly review construction documents to maximize coverage to avoid cost overruns and delays.

We Differ from the Insurance Company Adjuster

We exclusively protect the rights & interests of the policyholder. We enforce the insurer's obligation to fairly and promptly pay your claim.

Our reverse methodology has proven to reduce loss runs, drive down premiums, increase coverage, and maximize overall results.
