Rebuild

Essential to a full recovery is the management of documentation and resources.

Following the successful settlement of an insurance claim requires accurate processing of settlement agreements, appraisal awards, and court orders to ensure expedited deposit and distribution of insurance proceeds.

WE SUPPORT THE CLAIM PROCESS TO THE VERY END WITH PERSISTENT FOLLOW UP AND DRAFT ACCURACY.

Whether it is a lien or mortgage, each lender and/or bank has its own, unique forms and process.

Improper reporting of recovery or inaccurate information can slow the flow of funds, just like in the insurance claim process.

In today's economic climate, this process is sometimes more challenging than the claim process.

GLOBALPRO'S COMMITMENT TO ITS CLIENTS EXTENDS FAR BEYOND PREPARATION AND RECOVERY.

We want to ensure that we prepare you for a loss, ensure the proper adjustment of your claim, and that your insurance claim proceeds are made available to you immediately.

- ✓ Document storage and protection
- ✓ Planning and logistics
- ✓ Loss draft assistance
