September 20<sup>th</sup>, 2021

GlobalPro, a leading insurance coverage expert, before, during, and after loss or damage, has announced their expansion into the North Texas market with the opening of a brand-new office in Dallas. After successfully expanding the brand from its Miami, Florida headquarters into New York and Washington DC, fast growing Texas was a natural choice for the company's continued growth.

"Through mid-year, North Texas is 2 only to our NYC Market in total building activity," said Daniel B. Odess, President of GlobalPro Holdings. "North Texas has seen incredible growth over the past decade with more families moving there, and companies, both large and small, choosing to open or relocate their existing operations there. In 2021 alone, more than \$10 Billion in residential construction and \$17 Billion in total construction projects have begun," said Odess.

GlobalPro's North Texas region will be led by Rob Bowlby. For the past 29 years, Rob has worked in the commercial banking industry helping clients strengthen their balance sheets and expand their businesses. He has a history of leading companies into new markets and growing them successfully. "I met Dan over 10 years ago as he was just starting GlobalPro in Miami. I have watched the company's rapid growth and experienced their white glove service firsthand. I couldn't ask for a better partner or better brand to launch in North Texas," said Bowlby.

GlobalPro is a multidisciplinary insurance services firm that helps clients manage the risks to a financial recovery following a loss caused by wind, water, fire, theft, or another calamity. They assist with pre-loss planning and documentation, crisis management, the adjustment of insurance claims, and coordinating the reconstruction process.

The family owned and operated international business has represented the interest of policyholders and has recovered over \$1 Billion for its clients. GlobalPro's clients include more than 1,100 Community Associations, hundreds of businesses, and commercial property owners and operators. Recent successes include the recovery of more than \$25 Million in Hurricane and flood related losses and over \$100 Million in construction related losses.

GlobalPro's Texas Office will be located at 6060 N. Central Expressway Suite 500, Dallas, Texas 75206. As GlobalPro continues to expand, they will be adding members to the team. There are various employment opportunities for attorneys and construction professionals. For more information, visit [www.getglobalpro.com](http://www.getglobalpro.com).
